

Building Blocks for Sensory Integration

Join **Sheila M. Frick, OTR/L** in this interactive workshop as she presents a comprehensive understanding of reflex integration and provides insight into the sensorimotor foundations that goes beyond activity programs. Through a combination of lecture and movement labs, this course will outline how the **primary movement patterns** (reflexes) serve as a template for neurodevelopmental integration, but also how to apply this information as a guide for more precise sensory and motor strategies to ultimately support functional outcomes.
